RG104 E-1 Box 144 Feb-Mar 1887

WILSON BROTHERS & CO.,
Civil Engineers and Architects,
435 Chestnut Street, Philadelphia.

Philadelphia, March 9th 1887.

How Daniel M Fox.

Dear Sir.

We are informed by your Mr Steele-Comer - that the large screw press used for Medals - which has been removed from the Drafting room as soon as practicable.

We would advise that as soon as the Plumber has finished the work already commenced that he be directed to make the necessary changes in water or other pipes under the floor of room in the east flank of Mint now occupied by the Engineers office and for storage of certain empty boxes &c

This is the best location for the above mentioned Medal press and is so regarded by both Mr Steele and ourselves.

After the necessary changes, if any are made the foundations for the press should be laid.

Philadelphia, ... 188

and the fees removed thereto.

Our Mr Darrach will call at the Mint and give the details & directions provided that above recommendations are approved by you

Hon. Danl. M. Fox.

Dear Sir

We are informed by your Mr. Steele – Coiner – that the larger screw pass used for medals – which has been removed from the Shafting room as soon as practicable.

We would advise that as soon as the Plumber has finished the work already commenced that he be directed to make the necessary changes in water or other pipes under the floor of room in the east flank of Mint now occupied by the Engineers office and for storage of certain empty boxes &c.

This is the best location for the above mentioned medal press and is so regarded by both Mr. Steele and ourselves. After the necessary changes, if any one made the foundations for the puts should be laid and the puts removed there to.

Our Mr. Darrach will call at the Mint and give the detailed directions provided the above recommendations are approved by you.
